Fyi. Waiting for a response to my below email to JL.

He also invited me to the end of the ADs meeting around 440pm to discuss the PVSTIEG meeting. Here's my draft TPs if you have any suggestions. I shared them with him as well. I will get to your final slides soon.

John

John, This is an interesting request from EPA's Tribal Pesticides Program Council (TPPC). I wanted to run my response thru you in case you think it is not appropriate. I don't know if it came up through the RTOC to the national group and don't want to sound non-responsive.

In general, I'd like to say something like:

## Ex. 5 Deliberative Process (DP)

John

Hi Judy,

I am the tribal program coordinator for the OLEM HQ office and I received the question below from my colleague in OCSPP. I understand you are the RPM for the DDT dump site in open water off the coast of LA. Would it be ok if I passed your name along to Amanda? They are looking for someone from EPA to talk with the Tribal Pesticide Program Council and provide an overview. Maybe she can start by talking to you?

**Subject:** Question: DDT California - TPPC Request for EPA Speaker

Good morning Erika and Karen,

The TPPC is interested in learning about the recent news article: <https://www.latimes.com/environment/story/2021-04-26/ddt-waste-barrels-off-la-coast-shock-california-scientists> and would like to invite an EPA speaker to provide a brief overview. I am not sure which office would manage this effort (and if needed we can reach out to R9)– does OW or OLEM have any actions on this or are there any political sensitivities I need to be aware of?

The TPPC also identified requesting Region 9's [Fish Contamination Education Collaborative](#) (FCEC) to present/discuss at an upcoming TPPC Executive Committee meeting the status of an illegal DDT dumping off the shores of LA.

I wanted to check in with you both first to see if your NPMs are managing this – there was something in the article that discussed a congressional briefing.

Thank you,

Amanda
